

Controle com argumentos

Podemos ajustar `begin` e `end` de `LinearGradient`:

```
gradient: LinearGradient(  
  colors: [  
    Colors.blue,  
    Colors.lightBlue,  
  ],  
  begin: Alignment.topCenter,  
  end: Alignment.bottomCenter,  
),
```

Prática

- Ajuste o tamanho do texto para 32 e a cor para destacar.
